## PUBLICATIONS ISSUED IN JULY 1992

### EXPLANATORY NOTES

#### Introduction

This publication is issued each month as a supplement to the annual *Catalogue of Publications and Products, Australia* (1101.0) of the Australian Bureau of Statistics, which lists current ABS publications and gives brief descriptions (abstracts) of their contents. In addition, a *Publications Advice* (1105.0) is issued each Tuesday and Friday listing publications released on the day of issue and expected releases on the following five days (Canberra Office) or two days (State Offices).

2. Publishing News contains brief descriptions of the contents of new publications, describes changes in ABS publications and shows other information of interest to users of ABS publications.

#### Publication prices

3. A single price now applies to publications despatched by surface mail, both within Australia and overseas, and to counter sales. Airmail rates are available on request.

#### Mailing service

4. Clients who wish to receive free or priced publications on a regular basis may use the ABS Publications Subscription Service. For further details please refer to the back page of this publication.

5. Clients who already use this service and who wish to amend their requirements should quote their client identification number when contacting ABS. The

number is shown at the top left hand corner of the address label used to despatch publications to clients.

6. Renewal notices are sent to all subscribers annually in respect of the subscription year commencing on 1 January. Payment for priced publications is required in advance and should accompany renewal notices returned to ABS.

#### Statistical information service

7. Each ABS office has an Information Service to assist clients. The service is designed to answer inquiries from clients on available official statistics, including statistics not published for economic reasons. Unpublished statistics cover a variety of topics such as population, dwellings, building, imports, exports, shipping, etc., in the form of computer printout, microfiche, magnetic tape or specially prepared tables.

8. In cases where a considerable volume of data has to be specially extracted or where a regular statistical service is required, a charge will be made.
